

## Palm Tree Court & Spa Extension

Palm Tree Court & Spa - as a member of 'The Leading Hotels of the World', brings another very exciting project and thus we would kindly bring the matter to your notice that the hotel will be under expansion & development.

Within the next few weeks the hotel will commence with development of 76 new luxury units at the Palm Tree Court & Spa which will include a selection of junior suites in addition to some very special one bedroom and two bedroom suites as part of the new inventory.

The new project will be located on the sand stretch on the western border of the resort (Abu Dhabi / Dubai Waterfront side of Palm Tree Court & Spa). Hoarding will be placed to screen off the area which will be affected in future however the first phase of the project will comprise the fairly academic process of soil testing which will not cause any disturbance to the guests in the resort.

Once physical construction of the new wing commences in the next few weeks, all access to the site will be from a separate entrance outside the resort and work will take place during daylight hours only from 10am to 5.30pm. While a firm date for the physical construction has not been finalised, it is expected to commence around early April.

While we recommend advising your clients of the current preparations, we at present do not anticipate any significant impact to the enjoyment of our guests during their stay at the Palm Tree Court & Spa, however we will closely monitor the situation and advise you accordingly should this change.

We will continue to update you on the development of this exciting addition to the Palm Tree Court & Spa and should you require any additional details, please don't hesitate to contact us.
